IMI Sensors Launches Very High Temperature Charge Accelerometers
Designed for Applications Up to 900 °F (482 °C)

September 11, 2015 DEPEW, NY – IMI Sensors, manufacturer of industrial vibration monitoring instrumentation, announced the release of Series 357C very high temperature differential charge accelerometers. IMI has developed the sensors to be used in the commissioning of nuclear power plants, condition monitoring of power generation and aviation gas turbines and machinery protection in very high temperature environments.

The 357C-Series consists of five models- 357C71/EX357C71 with a sensitivity of 10 pC/g, 357C72/EX357C72 with a sensitivity of 50 pC/g and 357C73 with a sensitivity of 100 pC/g. All five models are electrically case-isolated and housed in a Nickel 625 housing with a 2-pin mini-MIL side connector.

IMI offers various differential charge amplifiers to support the launch of the Series 357C. Additional information about IMI's complete line of high temperature vibration sensors can be found at http://www.imi-sensors.com/contentStore/mktg/IMI_Downloads/IMI-HighTemp_LowRes.pdf. For all technical inquiries and application support, please contact Meredith Christman at mchristman@pcb.com or 716-684-0003 x2071.

About IMI-Sensors

IMI Sensors, a division of PCB Piezotronics, manufactures industrial vibration monitoring instrumentation, such as accelerometers, vibration transmitters and switches. These sensors feature rugged stainless steel housings and survive in harsh environments like paper and steel mills, mines, gas turbines, water treatment facilities and power plants. Integrating with portable analyzers and PLC's, IMI instrumentation helps maintenance departments reduce downtime and protect critical machinery. Our Platinum Stock Products program ensures fast delivery of over 10,000 sensors that are in stock and covered by a Lifetime Warranty. With a customer support team of more than 30 Customer Service Representatives and Application Engineers, IMI proudly stands behind their products with the services you value most, including 24-hour technical support, a global distribution network, and the industry's only commitment to Total Customer Satisfaction.
