IMI Sensors Launches Hazardous Area Approved Triaxial Accelerometer

October 6, 2015 DEPEW, NY – IMI Sensors, manufacturer of industrial vibration monitoring instrumentation, announced the release of Model EX629A11A/006CC, a hazardous area-approved triaxial ICP® accelerometer with an integral coiled cable and choice of terminating connector. IMI has developed the sensor to be used in route-based predictive maintenance in hazardous environments in conjunction with a wide variety of third-party, multi-channel data collectors and analyzers.

Model EX629A11A has a sensitivity ($\pm 10\%$) of 100 mV/g and a $\pm 50g$ pk measurement range. The sensor's frequency range (± 3 dB) is 2 to 10,000 Hz in the Z axis and 2 to 7,000 Hz in the X and Y axes. The model is housed in an epoxy-sealed stainless steel housing with an integral 6ft coiled polyurethane cable and choice of one of six terminating connector options.

This product joins IMI Sensors' [extensive line of sensors ideal for route-based predictive maintenance](#). For all technical inquiries and application support, please contact Meredith Christman at mchristman@pcb.com or 716-684-0003 x2071.

About IMI-Sensors

IMI Sensors, a division of PCB Piezotronics, manufactures industrial vibration monitoring instrumentation, such as accelerometers, vibration transmitters and switches. These sensors feature rugged stainless steel housings and survive in harsh environments like paper and steel mills, mines, gas turbines, water treatment facilities and power plants. Integrating with portable analyzers and PLC's, IMI instrumentation helps maintenance departments reduce downtime and protect critical machinery. Our Platinum Stock Products program ensures fast delivery of over

10,000 sensors that re in stock and covered by a Lifetime Warranty. With a customer support team of more than 30 Customer Service Representatives and Application Engineers, IMI proudly stands behind their products with the services you value most, including 24-hour technical support, a global distribution network, and the industry's only commitment to Total Customer Satisfaction. Visit us at www.imi-sensors.com.
